About Verge

The grassroots culture is what makes Verge unique and dynamic.

What is Verge?

Verge is a cryptocurrency designed for people and for everyday use. It improves upon the original Bitcoin blockchain and aims to fulfill its initial purpose of providing individuals and businesses with a fast, efficient and decentralized way of making direct transactions while maintaining your privacy.

What is the Verge Currency Mission?

Our mission is to empower people around the world by bringing blockchain transactions into everyday life. Verge Currency makes it possible to engage in direct transactions quickly, efficiently and privately. With Verge Currency, businesses and individuals have flexible options for sending and receiving payments. With the flip of a switch, we offer helpful integrations and tools that enable them to handle large scale transactions between merchants and small scale private payments.

About NetCents

Our Business

NetCents Technology Inc, the transactional hub for all cryptocurrency payments, equips forward-thinking businesses with the technology to seamlessly integrate cryptocurrency processing into their payment model without taking on the risk or volatility of the crypto market.

- ✓ Publicly traded in Canada and Germany (CSE:NC / Frankfurt: 26n)
- ✓ KYC, AML, IP Verification
- ✓ AI 2.0 proprietary algorithms to protect against fraud
- ✓ Instant Settlements to protect against market-volatility and illiquidity
- ✓ Platform demo

The Opportunity

Build Buzz & Brand Awareness

Build buzz, brand awareness, and further appeal to your target audience when you sell your products and services for Cryptocurrency.

Increase Sales

Access an untapped \$430 billion dollar market that is looking to spend their cryptocurrency holdings.

Instant Settlements

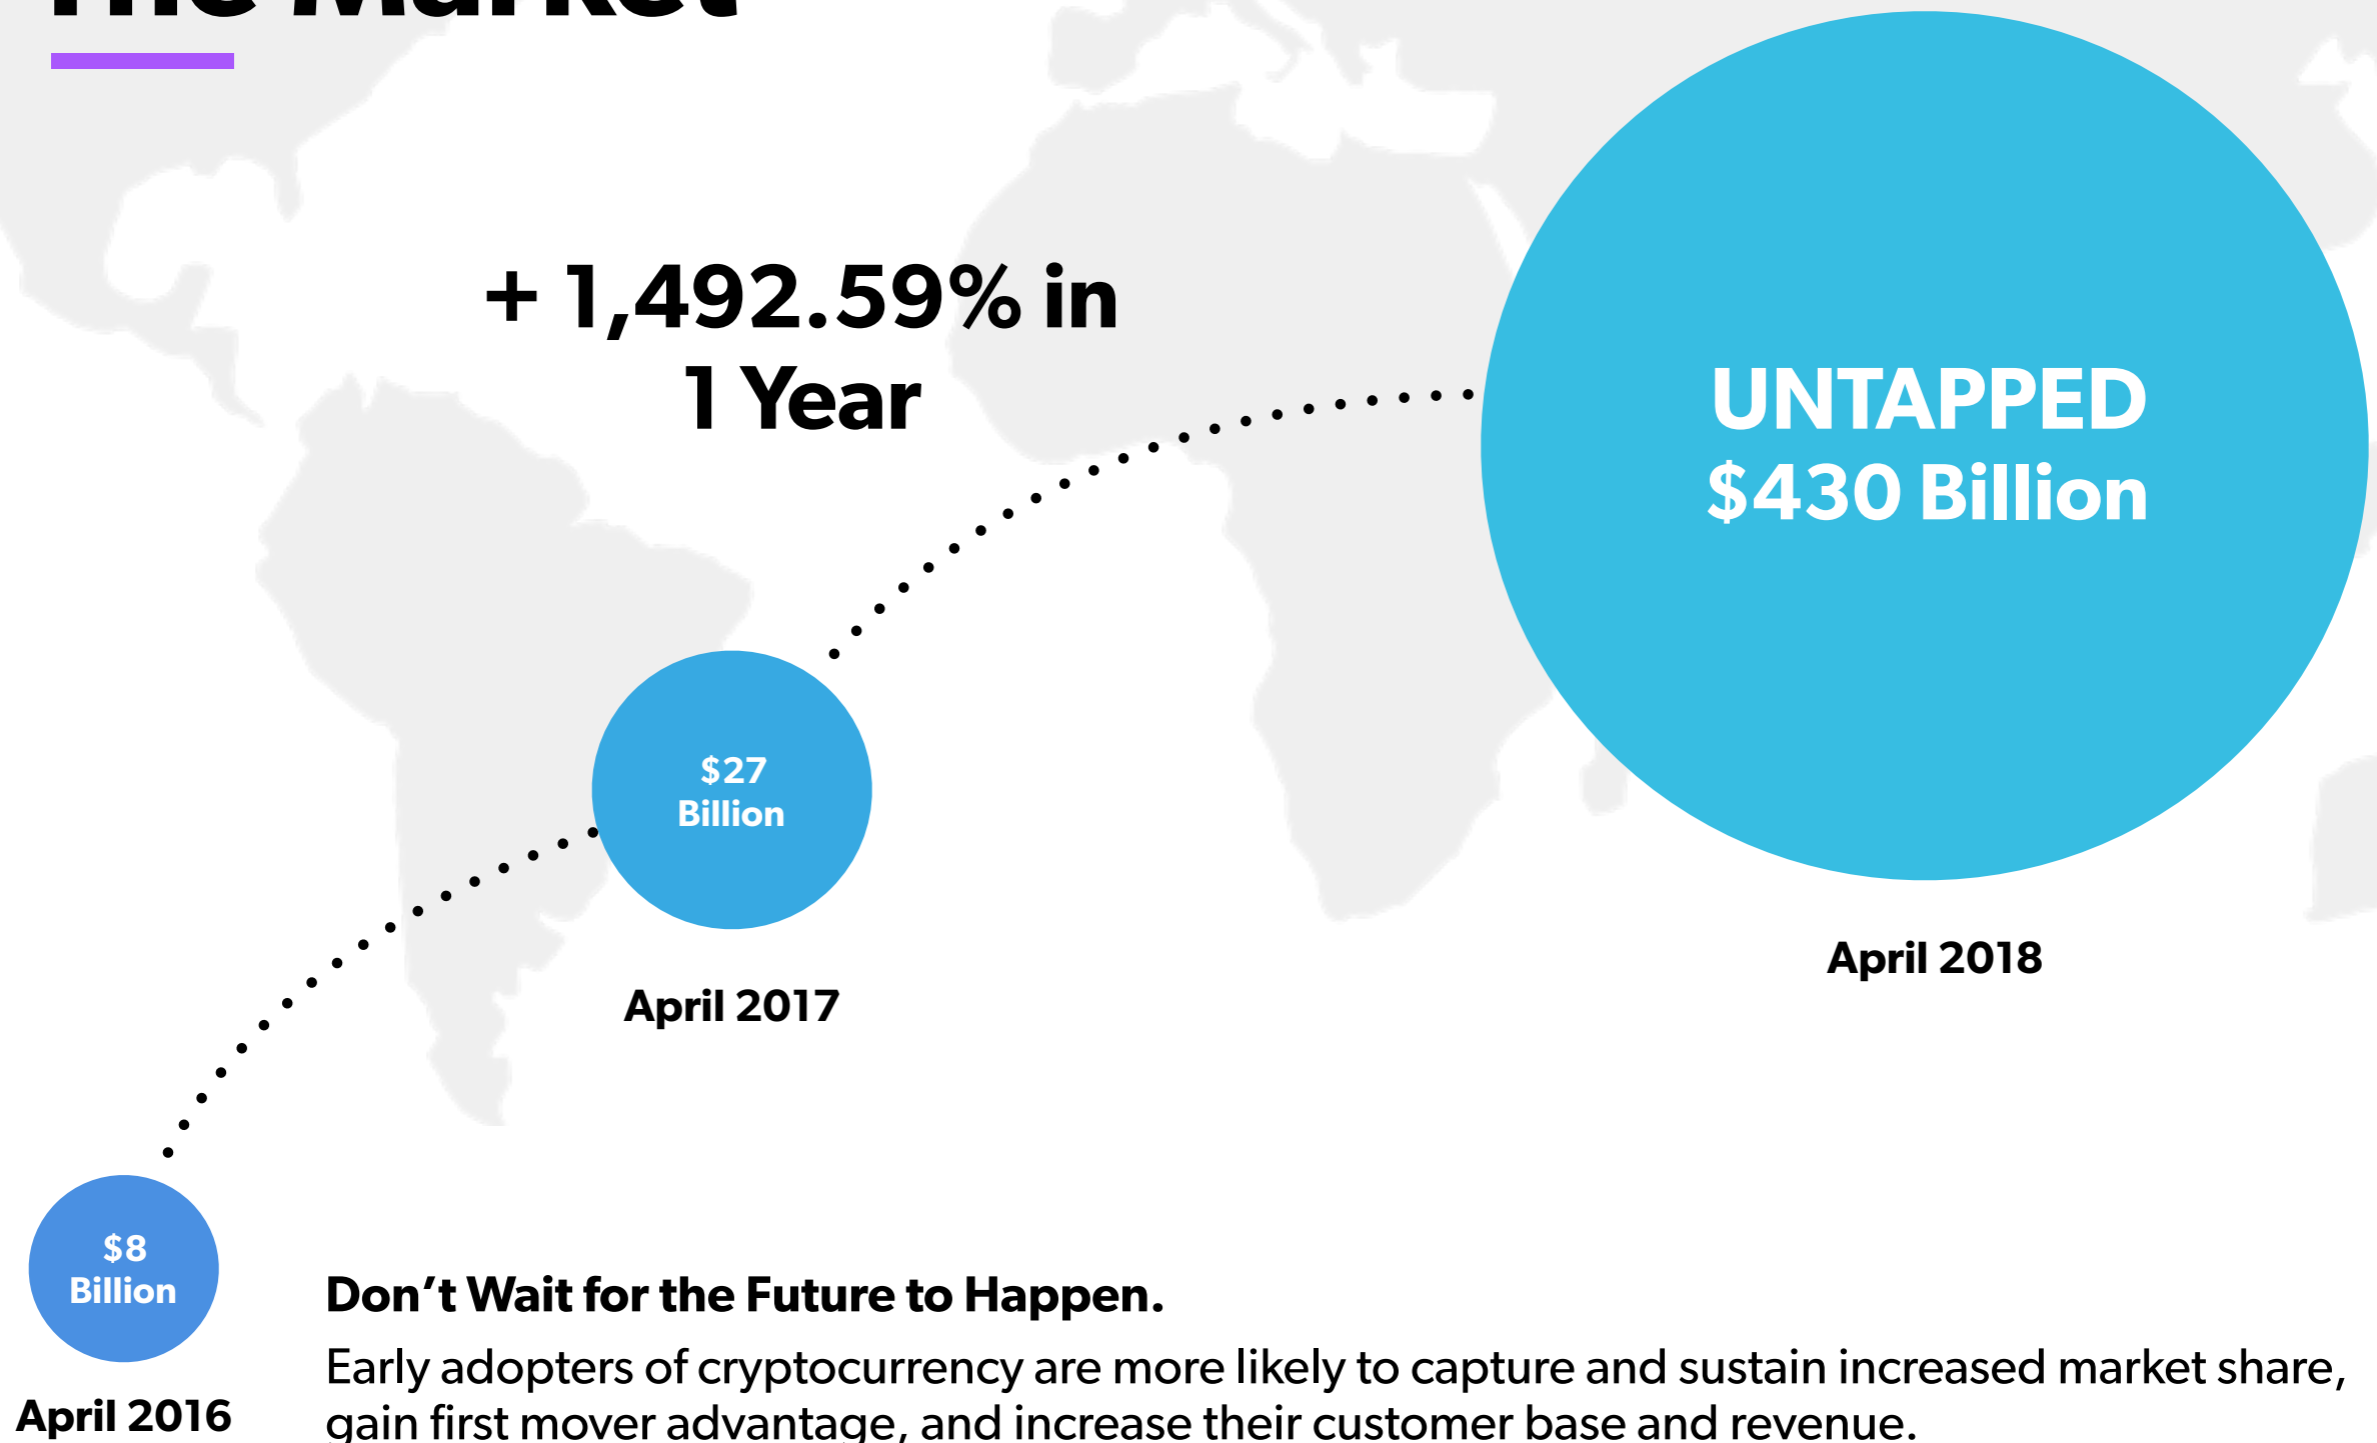

Leverage the liquidity of instant 'crypto-to-fiat or crypto-to-crypto' settlement.

Guaranteed Protection

Eliminate volatility from price swings with NetCents Instant Settlements. What does that mean? If a customer makes a purchase, you will receive the exact asking amount for your products and services.

The Market

Don't Wait for the Future to Happen.

Early adopters of cryptocurrency are more likely to capture and sustain increased market share, gain first mover advantage, and increase their customer base and revenue.
